

Allspan German Horse Pellets

OUR PELLETS

Our Allspan German Horse Pellets are made from natural soft wood and without the supplement of any artificial additives. The pellets react immediately when contact is made with liquid, the surface structure breaks open and the fine absorbing material settles, moisture is absorbed.

80% less manure! Horse droppings are easy to separate from the bedding. Good material remains complete in the box. Wet points turn dark and are easy to remove. After the initial bedding, you only have to re-bed 1 to 2 bags per week. The fine structure permits a quick rotting and composting of the bedding pellets.

Also available as pellets broken open:
